

Investigate Spectron

Ford Australia - We're moving with you.

FORD SPECTRON

...the floor. The
driving attitude. Glass areas are large for
clear visibility. Centre side windows slide
open and rear side-vent windows provide
additional flow-through ventilation.
The steel front bumper gives good parking
protection, while the rear step bumper
makes loading people, pets, bikes and
luggage an easy proposition. The large
lift-up rear door is supported by gas-filled
struts and is equipped with a convenient
interior release handle. Distinctive body
stripes and full wheel trims are part of the
Spectron image which sets it apart.

A three-seater bench makes up the
third row seating. This too is flexible. It can
be flip-folded forward to more than double
Spectron's load carrying area. Or it can
be fully reclined (with the Club Swivel in a
similar position), to make up a full-length
bed. With the second and third row seats
in this fully reclined position, Spectron
can carry bulky full-length loads.

All seats are faced with durable,
easy-to-clean cloth.

Both driver and front passenger door-
ways are equipped with assist handles.
Here are grab handles for second and
third row outboard passengers.
Plus a grab handle at the rear door.
